Letter of Recommendation: Ms. Julie Guerrero

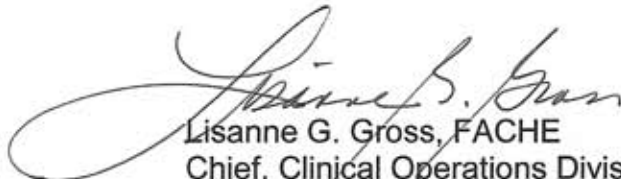

To Whom It May Concern:

I would like to take this opportunity to recommend Ms. Julie Guerrero as an exceptional graphics artist and employee. As a senior healthcare executive at Darnall, I have had the pleasure of working with Julie for the past four years and she singlehandedly thrust our Public Affairs and Marketing Office into the 21st Century.

Ms. Guerrero is extremely imaginative and has integrated the types of graphics our patients can relate to and which are medical without being medicinal. When given non-medical topics, her bright, attention-getting graphics and messages are always appropriate as they range in advertisements for ethnic meals to religious functions to military events. Her designs are always one of the highlights of any activity; we've even used them for themes for large military formal dinner functions.

Ms. Guerrero is a pleasant and professional employee – even at deadline. She will be an asset to any team and our loss will certainly be someone's gain. This organization is a more professional facility because of Julie – she made us look great! She has my strongest endorsement. I can be reached at (254) 288-8475.

Sincerely,

Lisanne G. Gross, FACHE
Chief, Clinical Operations Division
